The Three Phases

Phase 1 • Days 1–2 • Gut

- Gut Aid Shot daily
- Gut repair juices
- Prebiotic smoothies
- Inflammation flush
- Evening gut seal

Phase 2 • Days 3–5 • Liver

- Liver Aid Shot daily
- Bile flow juices
- Liver smoothies
- Beetroot deep flush
- Evening liver calm

Phase 3 • Days 6–7 • Cortisol

- Cortisol Calm Shot daily
- Adaptogenic juices
- Ashwagandha smoothies
- Nervous system calm blend
- Evening deep restore

What You'll Notice

- Bloating gone — gut inflammation visibly reduced by Day 3
- Skin dramatically clearer — liver and gut clearing shows first on the face
- Belly fat beginning to shift — cortisol-driven fat storage starts to reduce
- Sleep quality that most clients say is the best they've had in years
- Anxiety and mental noise reduced — cortisol calming affects your mind as much as your body
- Weight loss of 2–4kg for most clients across the seven days
- A relationship with food that feels different — cravings significantly reduced

This Reset Is For You If

- You carry weight around your belly that doesn't shift no matter what you do
- You're a woman over 35 and your body has changed in ways that confuse you
- You live a high-stress life in Dubai and it's showing up in your body
- You've done our full food Reset before and want the liquid-only intensive
- You've just finished a course of GLP-1 medication and want to protect your results
- You want the most complete reset available — and you're ready to commit to seven days

Honest Note

Seven days liquid-only is a commitment. Days 3 and 6 are when your body transitions between phases and some people feel it — fatigue, mild headaches, emotional shifts. These are signs the reset is working. Our team is with you on both of those days. People who finish The Total Reset describe it as the most impactful thing they've done for their health. We want that for you. But go in with clear eyes — this is serious, and it works.
